

Actuate is a soil health enhancement tool designed to impact nutrient availability and efficiency, as well as improve positive soil attributes. It also contains components that maintain compatibility with Calcium and acidic fertilizers. As part of a fertilizer program, C<sup>2</sup> Technology in Actuate can give crops access to more nutrition and provide a better soil environment in which to grow.

**GROWER BENEFITS:**

- Complexes/protects applied Calcium for enhanced availability and uptake
- More nutrient gets into your crop and stays available longer
- Accelerates biological processes that make nutrition more available to the growing crop

**RATES:**

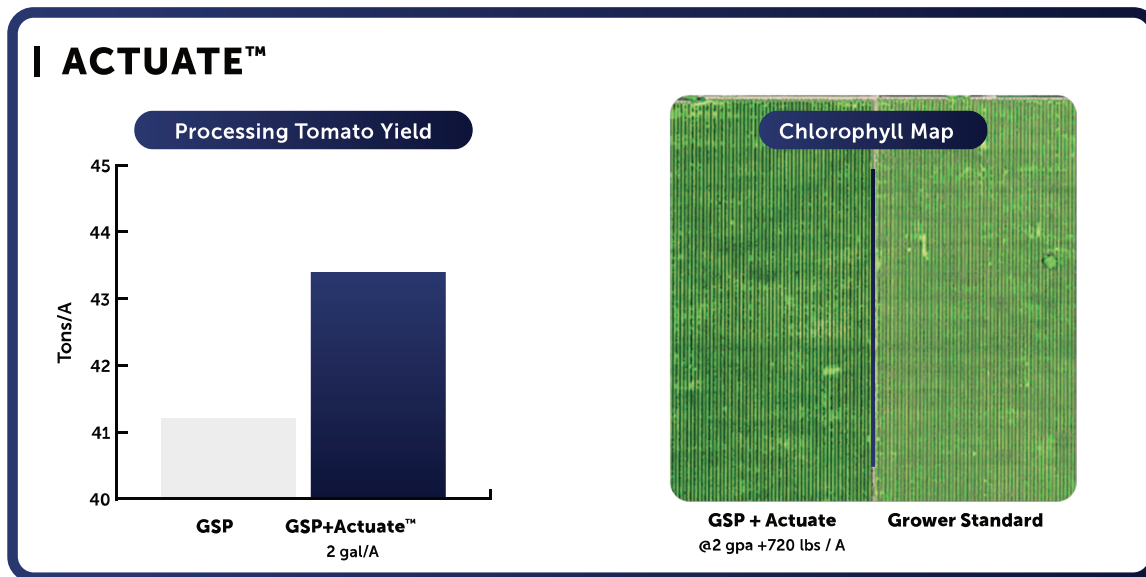

1-3 gal/A

**FEATURES:**

- Unique formulation allows blending with Calcium-containing and acidic fertilizers
- C<sup>2</sup> Technology enhances applied and native nutrient availability and plant uptake
- Extracted carbon and carbohydrate package improves beneficial soil microbial activity

**ANALYSIS:**

0-0-0 with C<sup>2</sup> Technology
