

Pro Manganese™ 5 (6-0-0) is part of a line of Pro Micronutrient products designed primarily for soil application but with the added flexibility of foliar use to address the needs of a variety of crops across a range of cropping systems. Formulated with chelating and sequestering agents, in addition to EDTA forms of metals, **Pro Manganese 5** from Loveland Products — and available exclusively from Nutrien Ag Solutions — provides compatibility and application flexibility for the results growers demand.

FEATURES

- Highly available forms of Manganese
- Chelating and sequestering agents for compatibility with many fertilizers and optimization for efficient applications
- Multiple formulations to suit a variety of crop needs and application practices to provide an economical source of soil-applied or foliar Manganese

GROWER BENEFITS

- Multiple complexing agents to provide protected Manganese in soil applications
- 5% Manganese to prevent or resolve deficiency

RATES

1-2 qt/A

ANALYSIS

6-0-0 3% Sulfur, 5% Manganese
