

Whether it's applied via drip, drench, inline, or foliar application, ReaX K25 delivers highly soluble and readily available forms of Potassium when your plants need it. Armed with patented C<sup>2</sup> Technology from Loveland Products, ReaX K25 helps mobilize potassium and other nutrients to key growing areas of each plant to help almost any crop reach its maximum yield potential.

**GROWER BENEFITS:**

- 25% Potassium supports mid to late season crop development for a stronger finish to the season
- Fuels the carbohydrate accumulation and translocation processes for structural growth and fruit yield and quality optimization
- Sufficient K levels in tissue reduce sensitivity to disease infestation

**RATES:**

2-12 qt/A

**FEATURES:**

- Unique C<sup>2</sup> formulation maximizes overall nutrient availability and mobility in the soil and superior uptake in the plant
- C<sup>2</sup> Technology components mitigate salt to improve water and nutrient uptake
- Formulated to provide season-long availability of existing nutrition and applied fertility

**ANALYSIS:**

0-0-25 with C<sup>2</sup> Technology

**C<sup>2</sup> TECHNOLOGY**

**C<sup>2</sup>** is a proprietary technology consisting of extracted Carbon and Carbohydrate reacted with nutrients for improved Soil Health and Plant Performance.

**Carbon:** Increases nutrient availability by fostering growth of beneficial soil microbes and positively impacting soil attributes creating better holding capacity for nutrients and water

**Carbohydrate:** Improves nutrient uptake and availability in both soil and foliar applications

**REAX<sup>®</sup> K25**  
Grape Yield

(Tons/Acre)

Treatment	Grape Yield (Tons/Acre)
Untreated	4.27
KTS 9 gpa	5.17
ReaX K25 3 gpa	6.57
ReaX K25 5 gpa	6.95
